Dear United States Patent Examiner,

Please review the following correction to the amendment (initially sent September 14, 2004) of Patent Application No. 10/650,069 originally filed on August 26, 2003. The correction of the amendment is in response to the detailed action (Art Unit: 3643) mailed January 4, 2005 by Examiner Jeffrey L. Gellner and lists and strikes through the old specification on the first page, shows the status of the claims and provides a title on the drawings, as was requested.

Thank you for reviewing the correction to the amendment.

Sincerely,

A handwritten signature in black ink, appearing to read 'Willfred Allen Schlicker', with a large, stylized flourish at the end.

Willfred Allen Schlicker
